

# PUBLIC INFORMATION MEETING

## Wayne County Airport

The Wayne County Board of Commissioners have recently begun to update the Airport Master Plan and Airport Layout Plan (ALP) to support growth and guide development to meet existing and future needs of Wayne County Airport. This is an invitation to provide comments concerning the project and the airport's future direction. There is no formal presentation planned; attendees will be able to view materials in an open house forum at their own pace and ask questions of the County, airport staff, and their consultants.

Please join us at an information session to learn more about the ongoing Airport Master Plan Update. During the information session, you will have an opportunity to understand the objectives of the study, review the study process, review focus areas for the study, and provide your feedback about the future of the Airport.

The public meeting materials will be available on the study website after December 7, 2023. We want your insight for this important study and future needs of Wayne County Airport.

Share your input and requests online at:
